CORRECT THE CANON

WITH SPEEDWELL

Did you know that just 13% of artists featured in major U.S. art museums are women? And that 46% of visual artists in the U.S. are women but they earn only 74¢ for every \$1 earned by male artists? And that over 60% of MFA students are women but U.S. galleries only show 30% women artists?

If you find these statistics reported by the National Museum of Women Artists in Washington D.C. as jarring as we do, please join us in our efforts to uplift and celebrate women artists who have been kept out of the conversation and help us move towards a more equitable art world.
